SUMMARY

QA Engineer and AI Specialist focused on product creation and software reliability. I have a full-stack technical profile that I leverage through the advanced use of LLMs and agentic tools. I specialize in leading automation in dynamic environments, compensating for resource limitations through innovative architectures and optimizing value delivery with full technical autonomy.

EXPERIENCE

OneVisa - Dubai (UAE) / Spain, (Part-time) Senior Principal QA Engineer (AI & Reliability)

Feb 2026 – present
3 months

- Solely responsible for QA in a high-growth startup, leading the design and execution of the end-to-end automation strategy from scratch.
- Scalability of test coverage without increasing headcount, compensating for human resource gaps by creating and orchestrating AI agents with Claude Code.
- Implementation of iterative self-diagnostic systems in pipelines, reducing debugging times and allowing deep technical integration with the engineering team.

Tata Consultancy Service - Banco Galicia, Manual QA Analyst - Automation

Apr 2023 – present
3 years 1 month

- Design and development of 'CobroTron', a proprietary AI agent integrated into VSC Github Copilot, specialized in significantly accelerating automation script generation for web flows using Playwright and Python.
- Construction of 'FullTron', the ultimate evolution of a QA agent with pioneering self-diagnosis to iterate tests autonomously. It generates complete E2E frameworks (POM) for native Apps/React (Appium + BrowserStack), APIs, and Web; automatically uploading Pass/Fail metrics and evidence to the ALM system.
- Agile technical management of the testing cycle and trace/log analysis, working closely with developers by optimizing infrastructure and queries (SQL/NoSQL).

Ada School - Colombia, Python Instructor (Data & FullStack BootCamp)

Sept 2023 – Oct 2024
1 year 2 months

- Advanced technical mentorship in Python focused on code quality, software architecture, and development best practices for international profiles.

EDUCATION

National University of Hurlingham

University Technician in Artificial Intelligence

Jan 2024 – present

Teacher Training Institute N°109

Secondary Education Professor in Economics and Management

Mar 2019 – Dec 2023

- Last year pending

SKILLS

AI & Agents: Claude Code, Gemini, DeepSeek, GitHub Copilot, Cursor, Antigravity, Engram, Prompt Engineering, OpenAI, Anthropic, Scikit-learn, Pandas, NumPy

Testing & QA: Playwright, Cypress, Selenium, Appium, Pytest, k6 (Performance), Postman, Bruno

Dev & Ops: Python, TypeScript, JavaScript, Java, Node.js, FastAPI, Flask, AWS, Docker, Jenkins, Linux, Bash, CI/CD

Observability & Data: Grafana, Kibana, SQL, NoSQL, Matplotlib, Seaborn, Trace/Log Analysis, GitHub Actions

Languages: Spanish, English
